

GRADE A

GRADE A CONTAINER NEW / ONE TRIP / MINIMAL USE

New or one-trip containers in excellent condition with minimal signs of handling. Clean inside and out with little to no surface rust, dents or cosmetic blemishes.

- ✓ Minimal wear and tear
- ✓ Excellent structural condition
- ✓ Little to no surface rust
- ✓ Ideal for customers wanting the best appearance
- ✓ Wind and water tight

WHY CHOOSE GRADE A?

Grade A Containers are nearly new with excellent appearance and structural integrity. Perfect for businesses that want the best looking container for retail, storage or customer facing applications.

GRADE B

GRADE B CONTAINER CARGO WORTHY / USED

Used containers showing more significant cosmetic wear, repairs and surface rust. Suitable for static storage where appearance is less important.

- ✓ Moderate cosmetic wear
- ✓ Visible repairs and rust
- ✓ Fully usable for static storage
- ✓ Lower-cost option
- ✓ Wind and water tight

WHY CHOOSE GRADE B?

Choose Grade B when you need reliable storage without paying a premium for appearance. It's a practical option for everyday use, particularly where the container will be working hard rather than sitting in a customer-facing environment.

GRADE C

GRADE C CONTAINER USED / STORAGE GRADE

Older, well-used containers showing considerable cosmetic wear. An economical option for basic static storage where appearance is not a priority.

- ✓ Heavy cosmetic wear
- ✓ More prominent dents, rust & paint deterioration
- ✓ Repairs and patches may be clearly visible
- ✓ Most economical grade
- ✓ Wind and water tight

WHY CHOOSE GRADE C?

Choose Grade C when you need functional storage at the most economical price. It's a practical option for basic storage where appearance isn't important, making it well suited to worksites, back-of-house areas and other non-customer-facing applications.
